DUPR COMP
SOURCE DATA REFERENCE

Purpose
This document preserves the source citation and public figures used by the DUPR Comp portfolio project. It is a concise factual reference, not a reproduction of the source article.

SOURCE

Title: DUPR rating percentiles: see how your rating stacks up
Publisher: DUPR
URL:
https://www.dupr.com/post/dupr-rating-percentiles-see-how-your-rating-stacks-up-2
Snapshot date stated in article: September 22, 2026
Reference prepared: October 16, 2026

The article describes DUPR doubles ratings for players with at least one result in the preceding 12 months. Singles ratings and inactive players are not included.

PUBLISHED RATING DISTRIBUTION

Rating band	Share of rated players
2.000 to 2.499	11%
2.500 to 2.999	20%
3.000 to 3.499	29%
3.500 to 3.999	24%
4.000 to 4.499	11%
4.500 to 4.999	4%
5.000 and above	1%

PUBLISHED PERCENTILE BENCHMARKS

DUPR rating	Percentile
3.0	31st
3.5	60th
4.0	84th
4.5	95th
5.0	99th

INTERPRETATION

The article reports rounded percentages. The 5.0+ distribution is grouped together; it does not report separate shares for 5.5, 6.0, or higher ratings. The article's percentiles describe active DUPR doubles players, not all recreational pickleball players.

DUPR Comp linearly interpolates between published percentile benchmarks. It does not extrapolate outside 3.0-5.0, where the source supplies no precise percentile values. App estimates are informational and are not official DUPR calculations.
